Exercise

- Assume list of response is of size 20 that has students' evaluation of the food in the cafeteria. The students rated the food from 1(bad) to 5(excellent). Read the list and count the number of occurrence of each rating point.

- response = [1, 1, 3, 4, 3, 3, 5, 4, 1, 2, 4, 5, 3, 2 ,5, 5, 2, 1,4, 5]

- Your output should look like:

Rating	Frequency
1	4
2	3
3	4
4	4
5	5
